

# Aquatic Learn to Swim Memo

## To be posted as an announcement for Session II

*Aquatic Learn to Swim Registration – Please make sure to sign up for correct level; if you do not know your child's level please call 956-381-5631 for more information. Participant may not be admitted into pool if signed up for wrong class. Refund may not be given.*

## For staff information.

Everyone whom participated in session 1 will know their level. New comers may have questions.

**References that help figure out “Big pool or Small pool” if they are unsure of what level they belong in.**

- **How old are they?**
  - Answer: If under 6, and this is their first session of the summer; they most likely belong in “Small pool”.
  - Answer: If 6 or 7, they might belong in the “Big pool” if they have experience with our program before or had instruction somewhere else. If no experience then inform them to sign up for small pool.
  - Answer: if 8 or older, and parent may claim they have plenty of experience in the water aside from instructions; inform them to sign up for big pool.
- **Swimming Skill Reference... Ask what skill their child has...**
  - Small Pool –
    - Levels 1 & 2 - Front float, back float, superman, head in water, arm circles, front crawl, back crawl, etc... (Beginner)
  - Big Pool -
    - Levels 3 & up – swimming half the pool, swimming across the pool, Backstroke, Freestyle, Butterfly, Breaststroke. (More advance)

*Reason why it is important to sign up for correct level...*

In order to keep proper swim instructor ratio per kid it is important we try our best in making sure people sign up correctly during registration. We have found that when a certain class gets full parents seem to just sign up for something else knowing aquatic management will place them in original desired & necessary class. We cannot continue to allow this to happen; It makes distribution of children much more complicated and can result in overcrowding classes making instruction almost impossible.

The swimming pool next door does not have a phone to give out information or answer question. This is the reason why correct information needs to be known and given out correctly from our main building. This goes for wearing apparel, Public Swim & Splash Pad hours, and all aquatic programs – Water Aerobics, Lap Swimming, and Parent & Baby. Please familiarize yourselves with this information. Please ask if you have any questions. **If unsure on how to assist, please forward the call to myself extension 1610.**
